How turn off disappearing messages on Signal

If you are under litigation hold, ███████████████████████████████████
███████████████████████████████ This document describes how to turn off disappearing messages for existing contact groups. For new contact groups, disappearing messages are turned off by default.
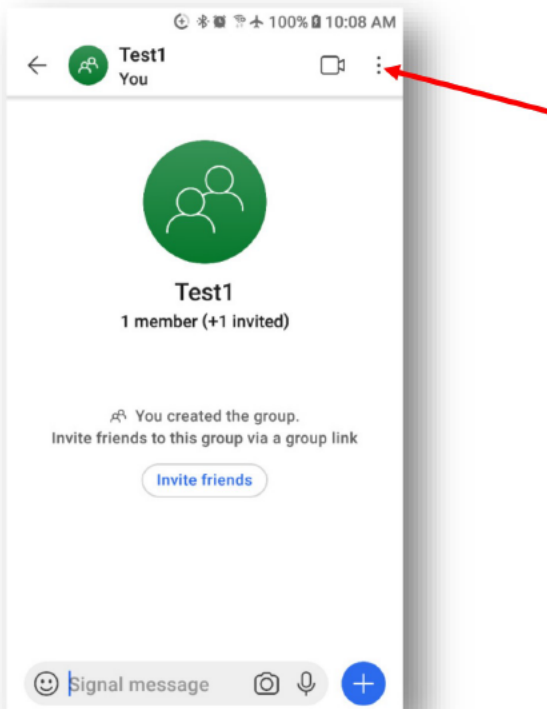

Step 1:
Open the Signal application, clicking on the following icon:

Step 2:
Select a group that uses disappearing messages, then select the settings in the upper right-hand corner:

Step 3
After opening the settings, select "Disappearing messages."

Step 4
Select "Off" and click save. Disappearing messages are now deactivated.
